Background

York Mind successfully won the tender to deliver Mental Health and Well-being Activities within the City of York in 2017.

The activities programme is funded for three years by City of York Council.

York Mind in partnership with Converge, Kyra, York Racial Equality Network, Survive, Sunshine Changing Lanes, York LGBT Forum, The Rowntree Society and Kindlewoods will deliver a range of activities in Year 2 of the programme from July 2018-June 2019.

The model of delivery is based on the ethos that mental health and well-being is supported and maintained by a combination of activities. These activities will fall under three pathways: Learning and Development, Well-being, and Social, with the underpinning principles of Connect, Grow and Hope.

The ethos and values of Connect, Grow and Hope aims to support individual's well-being and recovery journey by creating opportunities for social interaction, emotional support and facilitate opportunities to build wider, and more sustainable networks of support, with both peers and local services.

York Mind will provide a single point of access (SPA) and one key contact point for the activities programme.

Participants can enrol on the programme and devise and select their own pathway of support from a menu of activities from each of the three pathways.

A combination of activities will be delivered by York Mind and partners throughout the week including weekends and evenings, across 50 weeks of the year. Activities and groups will be delivered with staggered start dates, to help reduce waiting times and enable access to timely support.

Activities vary in length and frequency from one-off events to a 12 -week course and span more formal interventions such as courses, to vocational learning and informal support, including drop-in events. Some activities are linked to existing local community events, with the intention that annual events can support individuals continued participation into community events, beyond the lifetime of the programme.

Activities will use a variety of local venues and locations across the city, including community centres, universities, nature reserves and parks.

Enrolment Guidelines

The activities programme is open access for people resident in the City of York, aged 18 and over, who have a mental health and well-being need, or are an unpaid carer where the activities attended support their well-being.

To attend any of the activities or courses on offer, an enrolment form needs to be completed **first**. Once the enrolment form has been received, York Mind will contact the person named on the form to confirm if they have a place on their chosen activity.

Please **do not** attend or advise anyone to attend any activities before they have confirmation of a place, as many of the courses and groups have a limit on participants.

Whilst participants may select more than one activity, they need to indicate which is their priority and **first** choice. This will help us manage demand if any activities are oversubscribed.

If you have any questions, please email activities@yorkmind.org.uk or telephone 01904 643364 and select option 5.

being. These workshops will be run by the York St John drama society and drama students, as well as being supported by a Survive staff member to ensure that support is on hand should it be needed.

Drama Performances: The Drama society and students will also use drama activities to raise awareness of sexual violence issues. The aim of these performances will be to start a conversation with the campus, as well as to focus on early intervention by drawing attention to appropriate and inappropriate behaviours.
